

Oncology and Translational Medicine

April 2017 Volume 3 Number 2

Contents

Breast ultrasound elastography

Xinwu Cui, Youbin Deng 47

Ultrasonographic features of breast ductal carcinoma in situ

Liping Wang, Youbin Deng, Xinwu Cui 49

Quantitative differential diagnosis of breast tumors using shear wave velocity and different probe orientations

Yuan Huang, Youbin Deng, Liping Wang, Xinwu Cui 52

Ultrasound-guided percutaneous microwave ablation for small liver cancers adjacent to large vessels: long-term outcomes and strategies

Ruobing Liu, Kaiyan Li, Hongchang Luo, Wei Zhang, Tingting Zhang, Meng Gao, Wenhui Zha, Xinwu Cui, Youbin Deng 57

Selective partial salivary glands sparing during intensity-modulated radiation therapy for nasopharyngeal carcinoma

Guangjin Yuan, Qianwen Li (Co-first author), Shixian Chen, Chengwei Zheng, Jiang Tang, Jiang Hu, Ximing Xu 65

BRAF V600E/TERT promoter mutations and NIS/TSHR expression in differentiated thyroid carcinoma and their clinical significance

Xiaoting Ru, Qinjiang Liu, Haihong Zhou, Rong Yang, Lie Bao 71

Comparison of the effects of two types of multileaf collimators on tumor control probability in radiotherapy for breast cancer after conservative surgery based on the EUD model

Fuli Zhang, Yadi Wang, Weidong Xu, Huayong Jiang, Junmao Gao, Qingzhi Liu, Na Lu, Diandian Chen, Bo Yao, Jun Hou, Heliang He, Jianping Chen 77

Differential expression of nucleolin in colon adenoma and adenocarcinoma

Guozhao Meng, Junlei Yi, Ming Xie 82

Epidermal growth factor enhances chemosensitivity of colon cancer by inducing cancer stem cells to enter the cell cycle

You Zou, Xiaolan Li, Deding Tao, Junbo Hu, Jianping Gong 86
