Intravenous injection of AAV-PHP.eB across the blood-brain barrier in the adult mouse for central nervous system gene therapy

Yongwei Shu, Jie Yao (Co-first author), Yang Qu, Jing Zheng, Jing Ding, Lina Zhang, Yefan Wang, Linlin Zhao, Jingyu Zhang, Siqi Tang 1

Analyzing proteins in colonic tissues from mice with ulcerative colitis using the iTRAQ technology

Na Chen, Zhongyin Zhou 6

Predictive value of tumor volume reduction rates before and after induction chemotherapy in determining the radiosensitivity and prognosis of locally advanced nasopharyngeal carcinomas

Yang Song, Ge Wang, Chuan Chen, Yun Liu, Bin Wang 12

Clinical value of serum pepsinogen levels for the diagnosis of esophageal squamous cell carcinoma

D.J. Rivadeneira, Hesheng Luo, Jingyuan Tian 19

Comparison of efficacy and safety between late-course and simultaneous integrated dose-increasing intensity-modulated radiation therapy for cervical cancer complicated with pelvic lymph node metastasis

Yi Cheng, Nan Huang, Jing Zhao, Jianhua Wang, Chen Gong, Kai Qin 25

Gene mutations in a patient with chronic myelomonocytic leukemia and changes upon progression to acute myeloid leukemia and during treatment

Jiaming Li, Sujiang Zhang 30

Progress in the diagnosis and treatment of extensive-stage small cell lung cancer

Fei Xu, Xiaoli Ren, Yuan Chen, Qianxia Li, Ruichao Li, Yu Chen, Shu Xia 33

Aurora kinases: novel anti-breast cancer targets

Yiliyaer, Yusufu Maimaiti 43

A case of prostate embryonal rhabdomyosarcoma in an adult patient

Qi Wei, Zhiyong Sun 49
